

CITY SECURES POSITIONS FOR 639 DURING MONTH

Ninety-One Per Cent of Those Filing Applications Given Employment.

MANY JOBS NOW AVAILABLE

Monthly Report of Manager Conway Declares Richmond No Longer Has a Surplus of Labor—White Female Factory Operatives Wanted Here.

Persons who called at the public employment bureau maintained by the city of Richmond during the month of July number 3,427, according to a report just issued by J. J. Conway, manager. This number was distributed as follows: White male, 1,625; colored male, 1,542; white female, 215; colored female, 245. Of these only 747 filed applications for positions. Six hundred and thirty-nine, or 91 per cent of those who filed applications were placed.

The report continues: "Richmond no longer has a surplus of labor, the only problem now is the matter of choosing the job."

H. C. L. The Question.

"There, however, seems to be an unrest among labor. This unrest seems to originate with the high cost of living as the answer to the direct question 'Why did you leave your last employer?' is invariably this, 'I left hoping to secure work where I could make more money, as I could not meet expenses at the wages I received.' While the wages being paid now will average as high as has been paid for several months, yet the cost of living has advanced so that the purchasing power of a dollar has decreased.

"The service problem is in better shape now than it has been for several months. This bureau can now fill most calls for domestic help on the same day the order comes in.

"This bureau has been flooded with calls for experienced stenographers recently, numbers of the positions having to remain open several days before securing suitable applicants. This situation, of course, is due to the fact that quite a number of stenographers have their vacation, numbers of them desiring longer vacations than the usual ten days, resign their positions.

"We are also having quite a number of calls from industrial plants for white female operators. Inexperienced help is being well paid, with good opportunities for advancement.

"Work is quite active with the building trades, as can be seen from the building permits issued. Richmond stands fourth place among Southern cities in building activities. This bureau, as well as other organizations of like character, has had quite a number of calls for laborers, due to the fact that since the signing of the armistice, Richmond being in close proximity to the war industrial plants that ceased to operate, and Camp Lee, the demobilization center, also being near Richmond, which is the largest city in the State, naturally a large number of the unemployed flock to this city."

ACCUSED OF SHOE THEFT

Three Negroes Arrested on Charge of Stealing Box From Railway Company.

Aurelius Watkins, of 1622 Monument Avenue; William H. Smith, of 1300 Moore Street, all colored, were arrested late last night charged with the theft of a box of shoes from the Atlantic Coast Line Railway valued at \$110.70.

Smith is also charged with the theft of a lot of shoes valued at \$48.35 from the Richmond, Fredericksburg and Potomac Railway.

Richmond Events in Paragraph Form

Current Local News Told Briefly for Benefit of Busy Readers.

Plans are under consideration, it is understood, to provide one-way traffic in the business section of lower Cary Street. It is said traffic is much congested.

Lieutenant M. B. Coffman, of the medical corps, has returned from France, where he won the British Military Cross for heroism and devotion to duty under bombardment.

Police were notified yesterday of the theft of an automobile belonging to Leonard Washington, of 127 Chadlin Street, from Robinson and Broad Streets while the owner was in a carnival ground near-by.

The Apostolic Church has filed plans for a church at the northwest corner of Thirty-fourth and Leigh Streets, to cost \$10,000. The church will be a two-story building, erected by the East End Baptist Church at Twenty-eighth and R Streets.

Services in Grace Street Baptist Church were conducted by Rev. John Jeter Hurt, pastor of the First Baptist Church of Wilmington, N. C., who will also preach in the same pulpit the following Sunday.

Lieutenant Thomas L. Garrett, who was reported by the War Department as having been killed, has returned to Richmond. Lieutenant Garrett was formerly sergeant-major in the Richmond Grays. He was an aerial photographic service in France.

Edgar A. Saunders qualified yesterday before City Clerk McDowell as a deputy high constable, having been appointed to that office by High Constable William H. Wyatt. Mr. Saunders is a son of United States Marshal John G. Saunders, of South Richmond.

Major Gerald A. Ezekiel, who spent two years overseas as a surgeon with the Third Hundred and Twentieth Field Artillery, and who since his return to this country has been at Rochester, Minn., at the Mayo clinic, has returned to Richmond.

Brigadier-General Ora E. Hunt, commanding the Sixth Brigade, Third Division, has been awarded the Distinguished Service Medal, according to word received here. Mrs. Hunt is at 1000 Park Avenue during the absence of her husband overseas. He will return the last of this month with his division.

Thieves entered the dwelling of Fred W. Smith, of 291 Hull Street, Friday night, escaping with a valuable lot of jewelry and miscellaneous articles of value. Two gold watches and a silver watch were among the articles stolen, as well as half a dozen rings, two of them with diamond settings.

Linwood Butler, Linwood Dudley and Charles Blunt, all colored, who gave no names, were arraigned in Police Court yesterday, charged with the theft of an automobile from Bank and Ninth Streets Friday morning and sent on to the grand jury. The three negroes were brought back from Williamsburg by Captain Wright and Detective Bertucci, where they were arrested.

Dr. E. C. L. Miller, who is in charge of a laboratory at the Medical College of Virginia, recently installed to make analysis for rabies, has announced that it will no longer be necessary to send heads of dogs which bite people to Washington to determine whether the animal was "mad."

Ashley Strauss, of the Health Department, is associated with Dr. Miller in the laboratory work.

PLAN TO CHECK BOLSHEVISM

German and Austrian Leaders Confer on Means to Halt Progress of Radicals.

PARIS, August 2.—Dr. Karl Renner, the German-Austrian Chancellor, and Herr Frantz, the Austrian Conservative leader, have conferred at St. Germain with a view of establishing between the parties of the Left and the Conservatives and Liberals a coalition intended to check Bolshevism, the Petit Parisien says it learns from reliable sources.

CROSS COUNTRY IN 36 HOURS IS PLAN FOR MAIL PLANES

Fleet of Postal Ships Ready for Flights Between Important Cities.

WASHINGTON, August 2.—Giant airplanes that will push United States mails from New York to San Francisco in thirty-six hours, are planned by Otto Praeger, head of the United States air mail system. He said today:

"They'll go into operation within a year. That will clip three days and a half from the present schedule for mails between Atlantic and Pacific coast cities. It will make the United States just one day and a half wide where it now is nearly five.

"It will be the first step in the air-transportation of the entire United States postal system. Within ten years the railroads will carry mails only on short runs of, say 100 miles. Airplane mail routes will touch every big city in the country.

"We'll operate three big transcontinental routes, over which big mail-boats will swing in squadrons, carrying hundreds of tons of letters and packages.

"Feeder routes will connect cities on the Great Lakes with those in the Gulf of Mexico, and the Mississippi, Ohio and Missouri River valleys will be aerial highways.

"Billions of dollars will be saved every year for American business men."

The United States now has the only

government air mail system in the world operating daily. Routes connect Washington, Philadelphia, New York, Cleveland and Chicago.

Praeger began work with five battered training planes donated by the War Department.

OBSERVE TERCENTENARY OF POPULAR GOVERNMENT

Society for Preservation of Virginia Antiquities Holds Session at Jamestown.

[Special to The Times-Dispatch.] WILLIAMSBURG, August 2.—The celebration of the tercentenary of the first legislative body in America on the exact historical spot of its meeting, was fittingly celebrated at Jamestown Island yesterday afternoon under auspices of the Society for the Preservation of Virginia Antiquities.

The program, as arranged, was carried out in the memorial church, erected upon the foundations of the old church, in which the first legislative body of the North American continent assembled 300 years ago, July 30. The Rev. E. Church and successor of the ancient church at Jamestown, led the devotional service and presided over the

meeting. A small choir, led by Mrs. E. D. Peachy, sang hymns appropriate to the occasion.

Dr. John Leslie Hall, dean of the William and Mary faculty, was the first speaker, the feature of whose address was the religious nature of the first meeting of a legislative body in the New World. Dr. Hall cited records to prove that this was the first time in the history of the world that a law-making body was opened with prayer, a custom that is general now in all Christian countries. The speaker pointed out that this religious influence has followed the American government from its inception, and was its chief cornerstone unto the present day. This alone, he thought, was responsible for the growth and success of America and the solidarity of its people.

Dr. Lyon G. Tyler, president emeritus of William and Mary, the other speaker on the program, dealt with historical facts relating to the first general assembly and the influence and effects of its action upon the subsequent republic. The exercises closed with a hearing of an original poem by Dr. James Southall Wilson. Mrs. John R. Lightfoot, of Richmond, was in charge of the exercises on behalf of the Association for the Preservation of Virginia Antiquities.

ECZEMA

Also called Tetter, Salt Rheum, Pruritus, Milk Crust, Water Poison, Weeping Skin, etc.

For fifteen years I have been treating one disease alone, ECZEMA. I have handled over one million cases. I do not pretend to know it all, but I can cure the disease is due to an excess of acid in the blood, and closely related to rheumatism and cancer. This acid must be removed.

Ecema is called by some people Itch, Tetter, Salt Rheum, Pruritus, Milk Crust, Weeping Skin, etc. and when I say it can be cured, I mean just what I say—CURED, and not merely patched up for a while to return worse than before. It makes no difference what other doctors have told you, or what all you have tried, all I ask is just a chance to prove to you that this vast experience has taught me a great deal that would be of help to you. If you will write me today I will send you a free trial of my mild, soothing, guaranteed treatment that will do more to convince you suffer any more with eczema and refuse to merely write to me for free trial, just dropping me a postal today is likely to give you more real comfort in a week than you ever expected to enjoy again. Do it right now, your very life may be at stake.

J. E. CANNADAY, M. D., 1489 Court Bk., Sedalia, Mo.

References: Third National Bank, Sedalia, or ask your banker to find out about me. Send this notice to some poor sufferer from eczema. It will be a kind act by you.

LALLEY LIGHT AND POWER PLANTS

For Every Farm and Rural Home

There is not a farmer in Virginia today who would think of harvesting his wheat crop with the old-fashioned scythe. The more modern binder not only does the work in one-tenth the time, but does it better, more economically and with much less labor.

Lalley Light and Power Plants

offer equally as much labor-saving and a great deal more comfort to the entire farm family than any invention that has been placed upon the market. Every up-to-date farm will soon be equipped with a complete lighting and power plant.

What the Lalley Electro Power Will Do

It will light every building on the farm with the touch of a button or the turn of a switch. It will furnish a bright, safe light to read by, work by. It will pump the water, and churn, run the washing machine, turn the grindstone, or do any one of the hundred and more things around the farm that requires manpower to do. AND IT WILL DO IT CHEAPER AND SAFER.

COST OF PLANT

is small compared with the benefits to be derived. Cost is determined by power and light requirements.

DEALERS WANTED

We want high-class dealer representation in a number of counties in Virginia. The possibilities are limited only by the number of homes in your county. We would also want our dealers to handle the LEADER WATER SYSTEMS. Every modern farm house should have electric lights and running water. For full information address

In-Flu-Enza and Out-Flew-Hair

YOU all know the after effects of last year's "FLU." It left most people in a run down condition; some developed rheumatism, a few got deaf; but the greatest malady caused mental anguish rather than physical pain. It was the loss of hair.

Thousands of Influenza cases became "Out-flew-hair" cases. But only those who did not know Sergeant's Mange Medicine had cause to worry. Those who knew its worth, used it,—and Sergeant's Mange Medicine saved many a scalp last year.

The medicine was so called because it was originally formulated for "Our Friend, the dog." That was 40 years ago. Since then, thousands upon thousands of people have discovered that it works wonders for the human hair. Although it has a clean, refreshing odor, it is nothing like the perfumed tonics whose excess of alcohol dries up the scalp. It's a real medicine. It works with Nature.

If you are suffering from dandruff, an itchy scalp, or oncoming baldness due to Influenza or any other cause, Sergeant's is the real, sensible Medicine. Try it.

Sergeant's Mange Medicine sells for 65c a bottle on the unqualified guarantee that if you do not say that it is absolutely the finest preparation you have ever tried for any of the scalp or hair diseases named above, you can return the bottle and get your money back. Manufactured solely by Polk Miller Drug Co., Inc., Richmond, Va. Prescribed by physicians—especially following the "FLU." Endorsed and applied by Barbera and Hairdressers in the scientific treatment and care of the scalp and hair. Sold at 65c a bottle by every druggist, department store and sporting goods store.—Adv.
